APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 35943 is issued subject to the terms and conditions imposed in said Permit 35943 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined amount of water granted under this permit and Permits 35750, 37722, and 43146 is limited to what the well covered under the four permits is capable of producing. If certificates of appropriation are issued under this permit and Permits 35750, 37722, and 43146, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the four permits is capable of producing.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not

to exceed 0.2 cubic feet per second, but not to exceed
17.99 million gallons annually.

Actual construction work shall begin on or before N/A

Proof of commencement of work shall be filed before N/A

Work must be prosecuted with reasonable diligence and be completed on or before November 3, 1981

Proof of completion of work shall be filed before December 3, 1981
